

S 755 Finisher

Compact • Versatile • High-Performance

SKU: LANDISS755G2

If space is a consideration, you no longer have to sacrifice quality and performance in a finisher. The S 755 accomplishes almost everything the larger machines do while occupying just a fraction of the floor space without compromising the high standards you've come to expect from Landis machinery. The S 755 is compact, highly efficient and versatile and is equipped with a powerful dust collection system.
